

Dock Safety

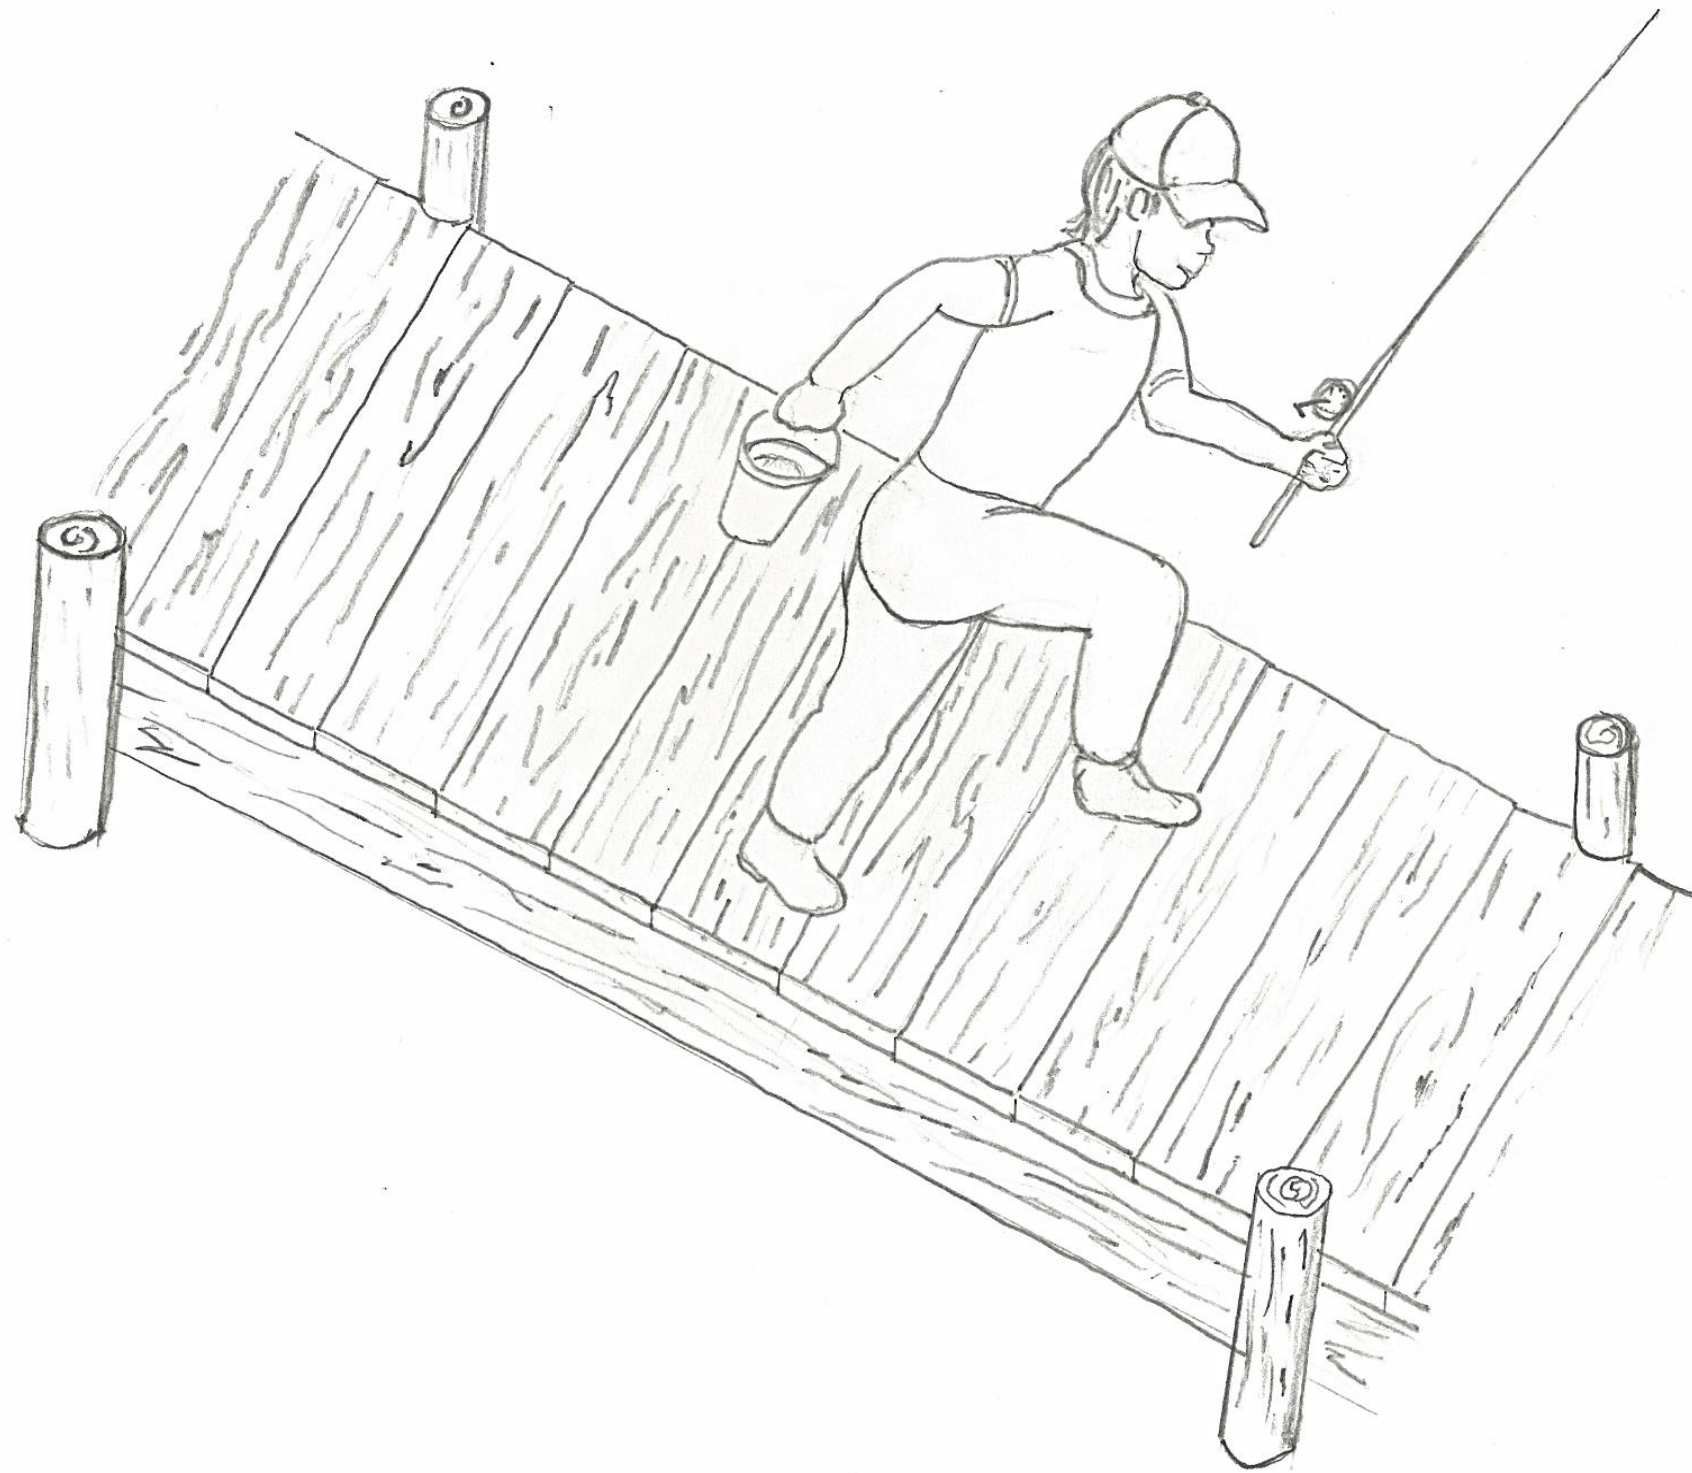

**Find 7 things
that are NOT
dock safe**

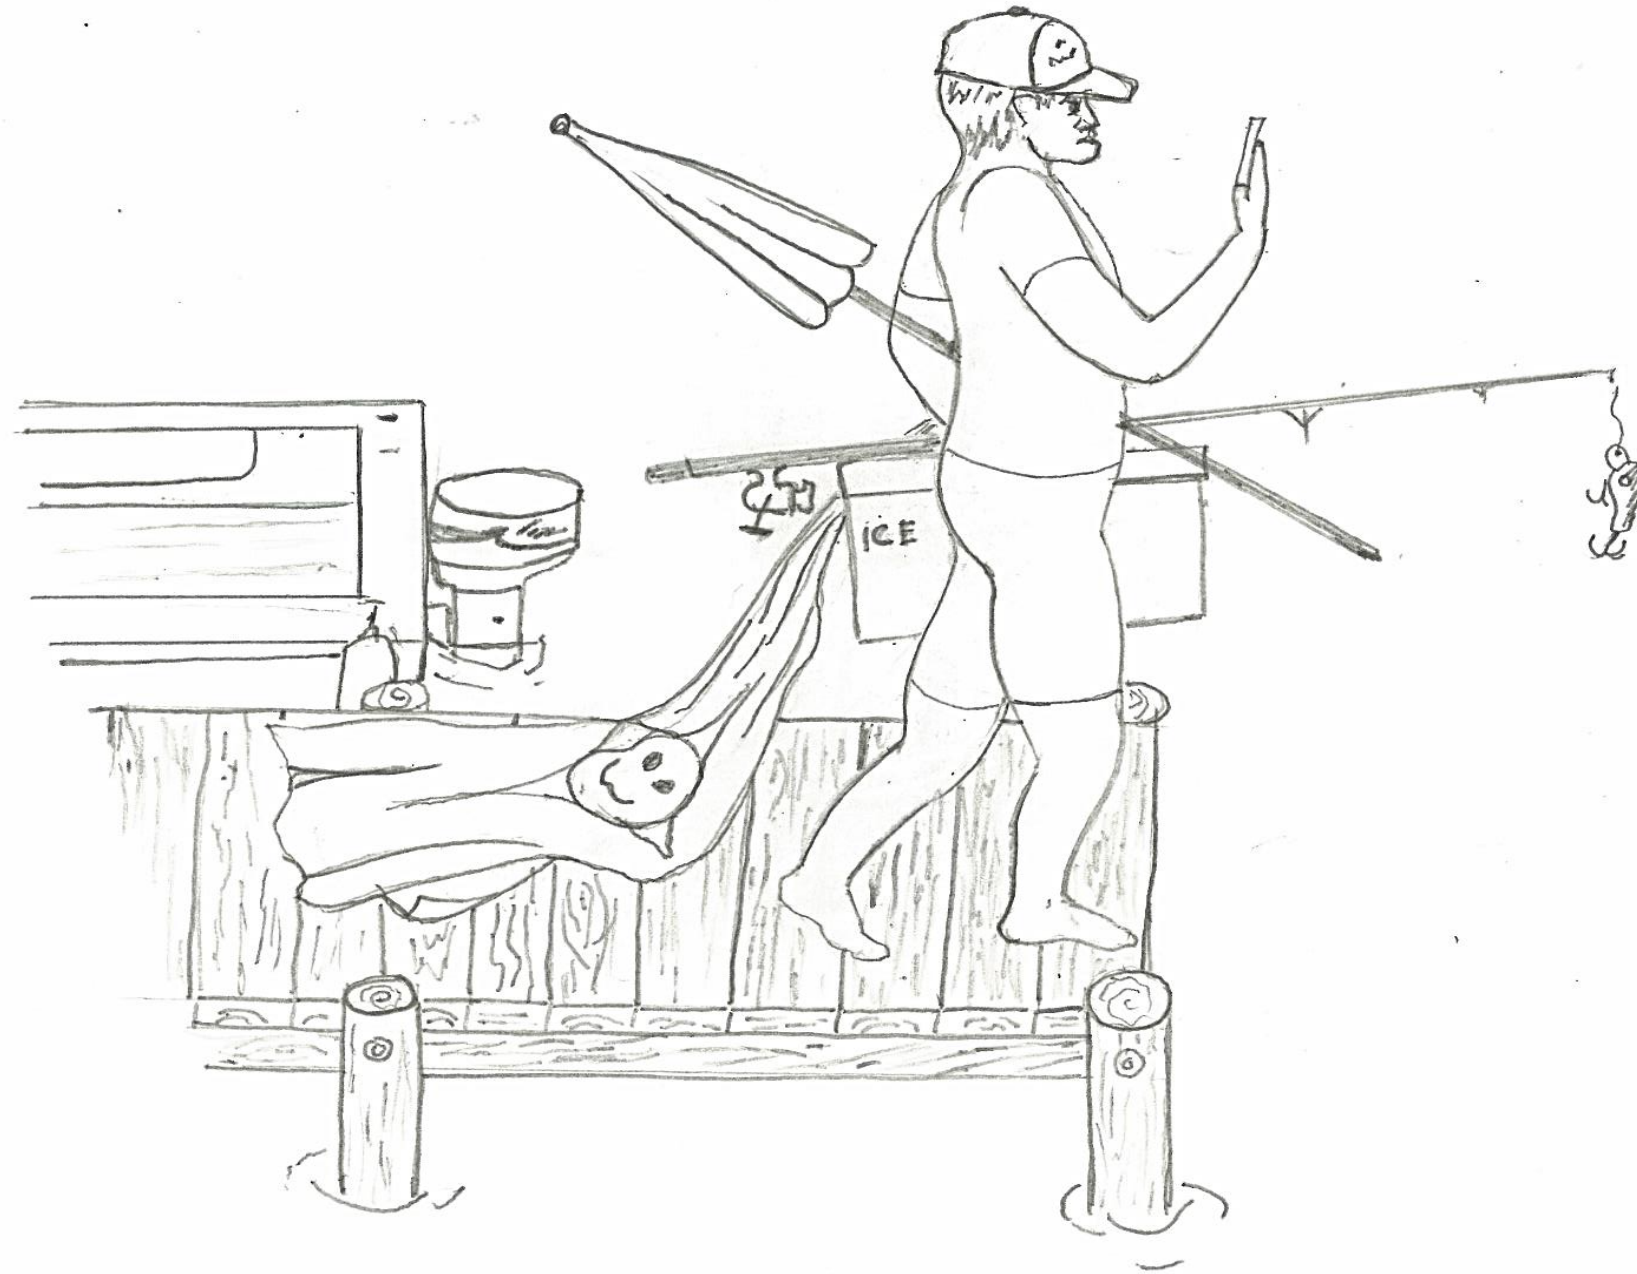

Never go to the dock alone

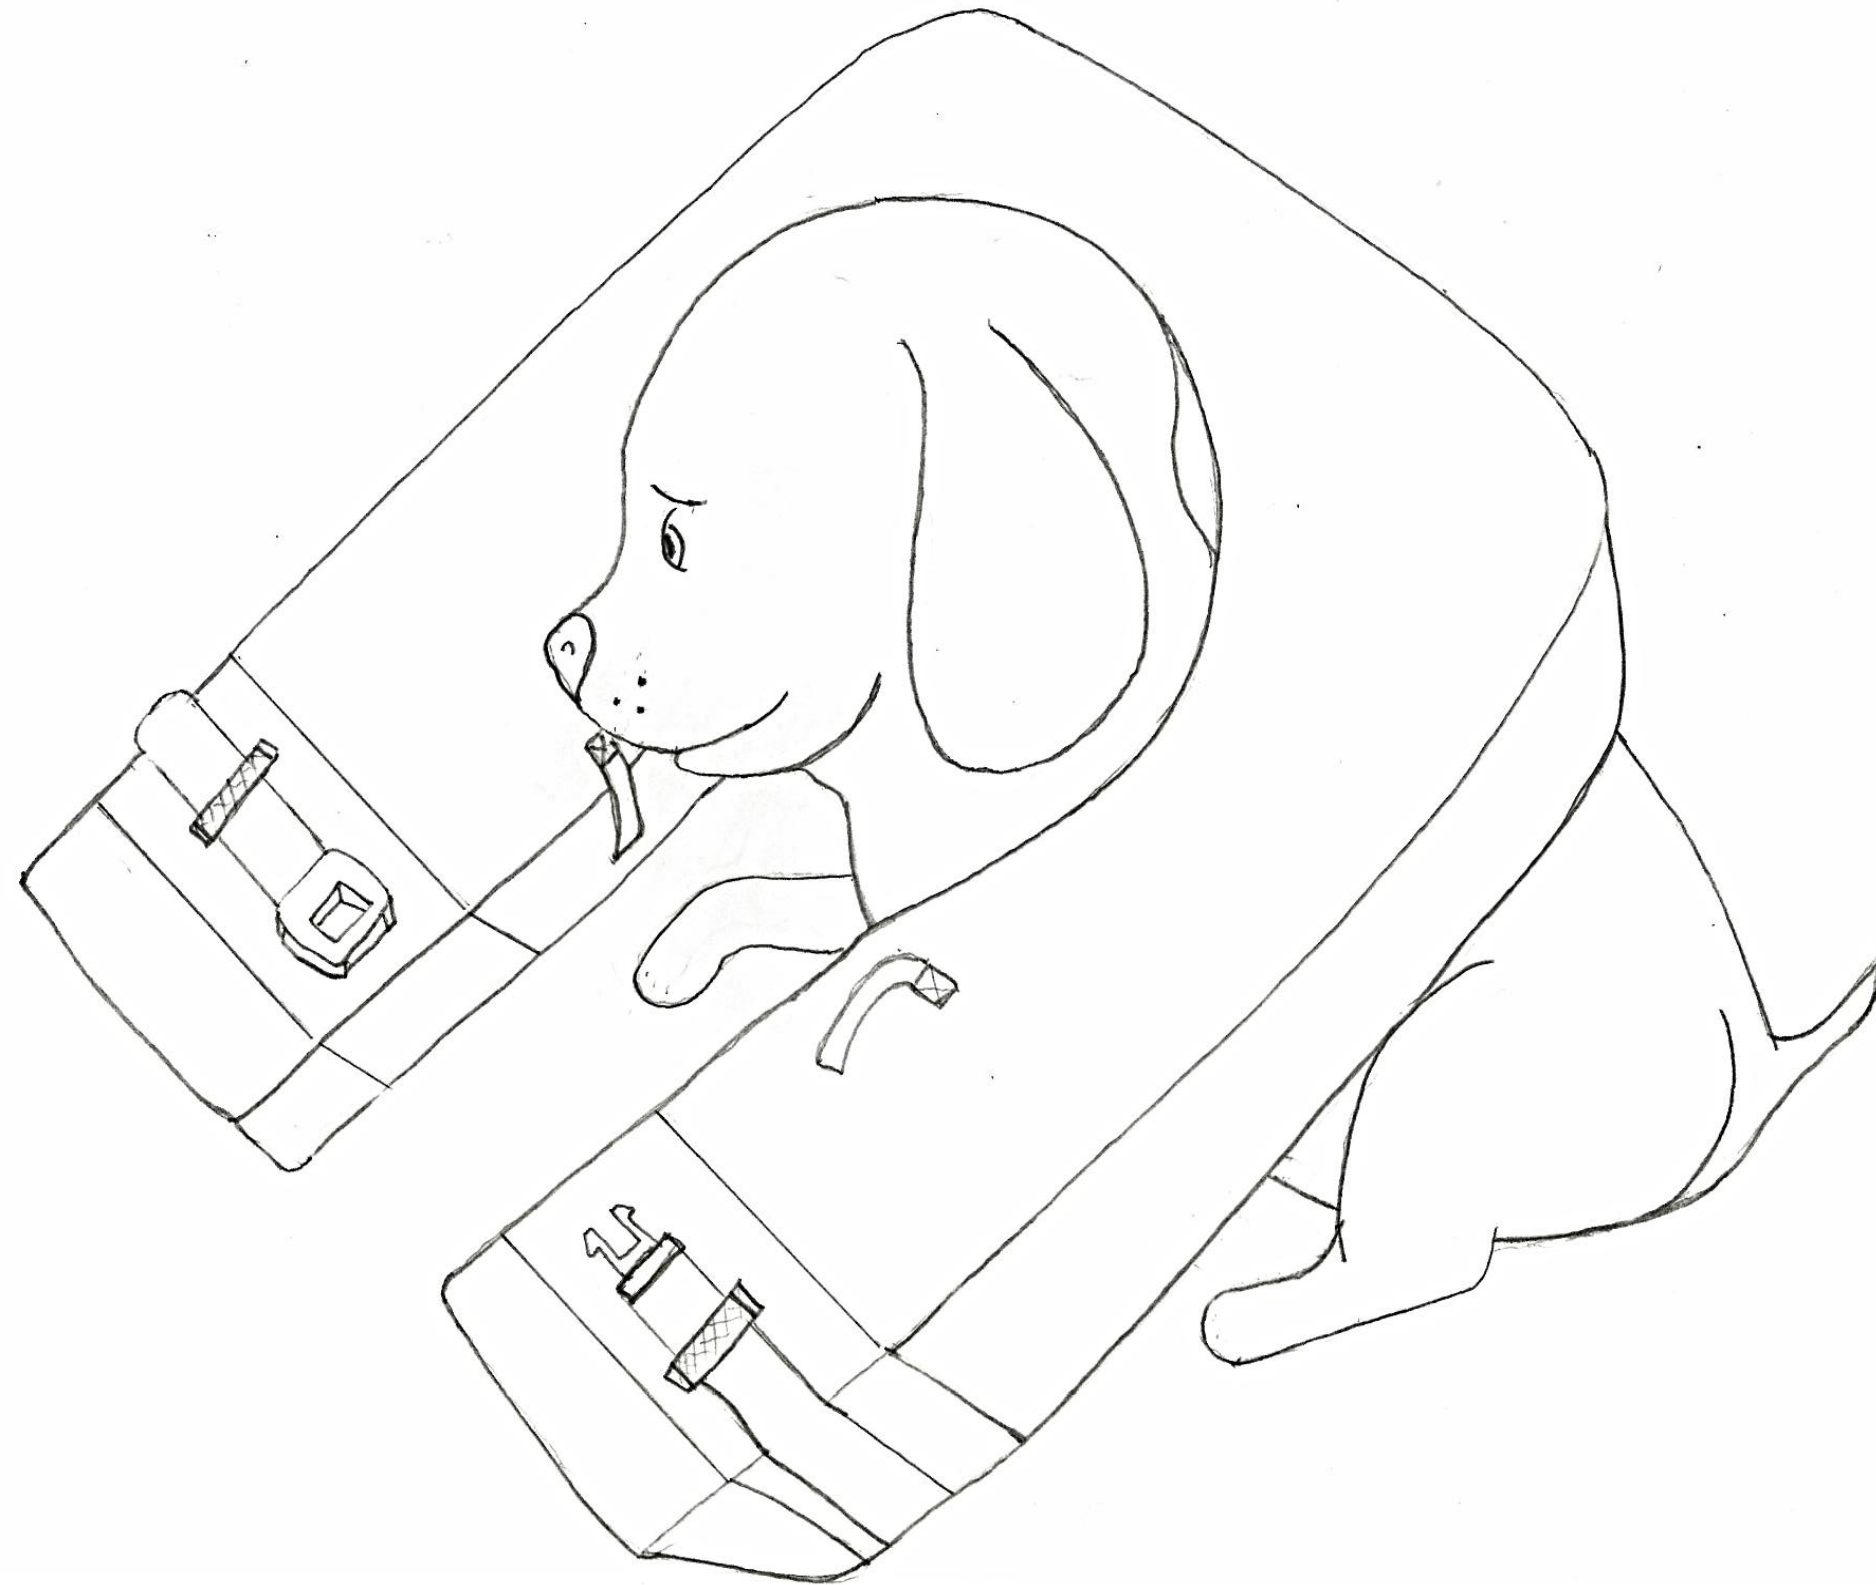

Uh-oh, no running!

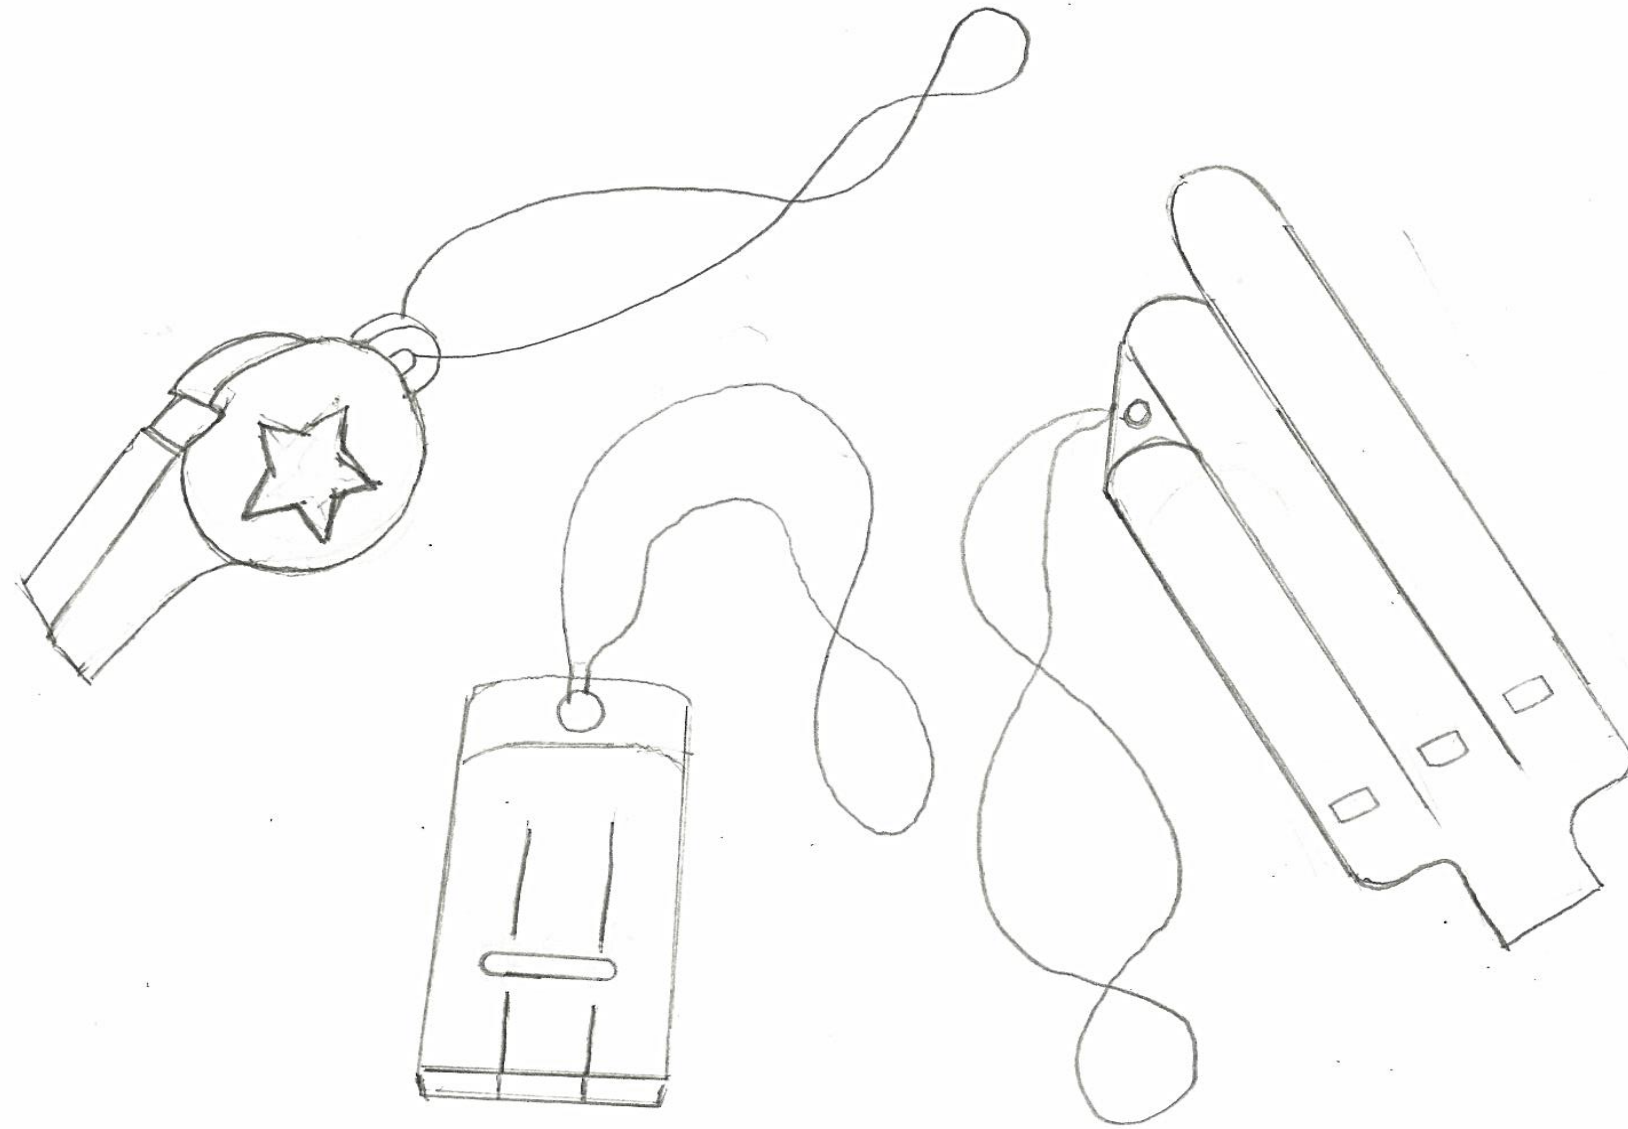

Carrying too much stuff or being distracted
can cause you to fall in the water

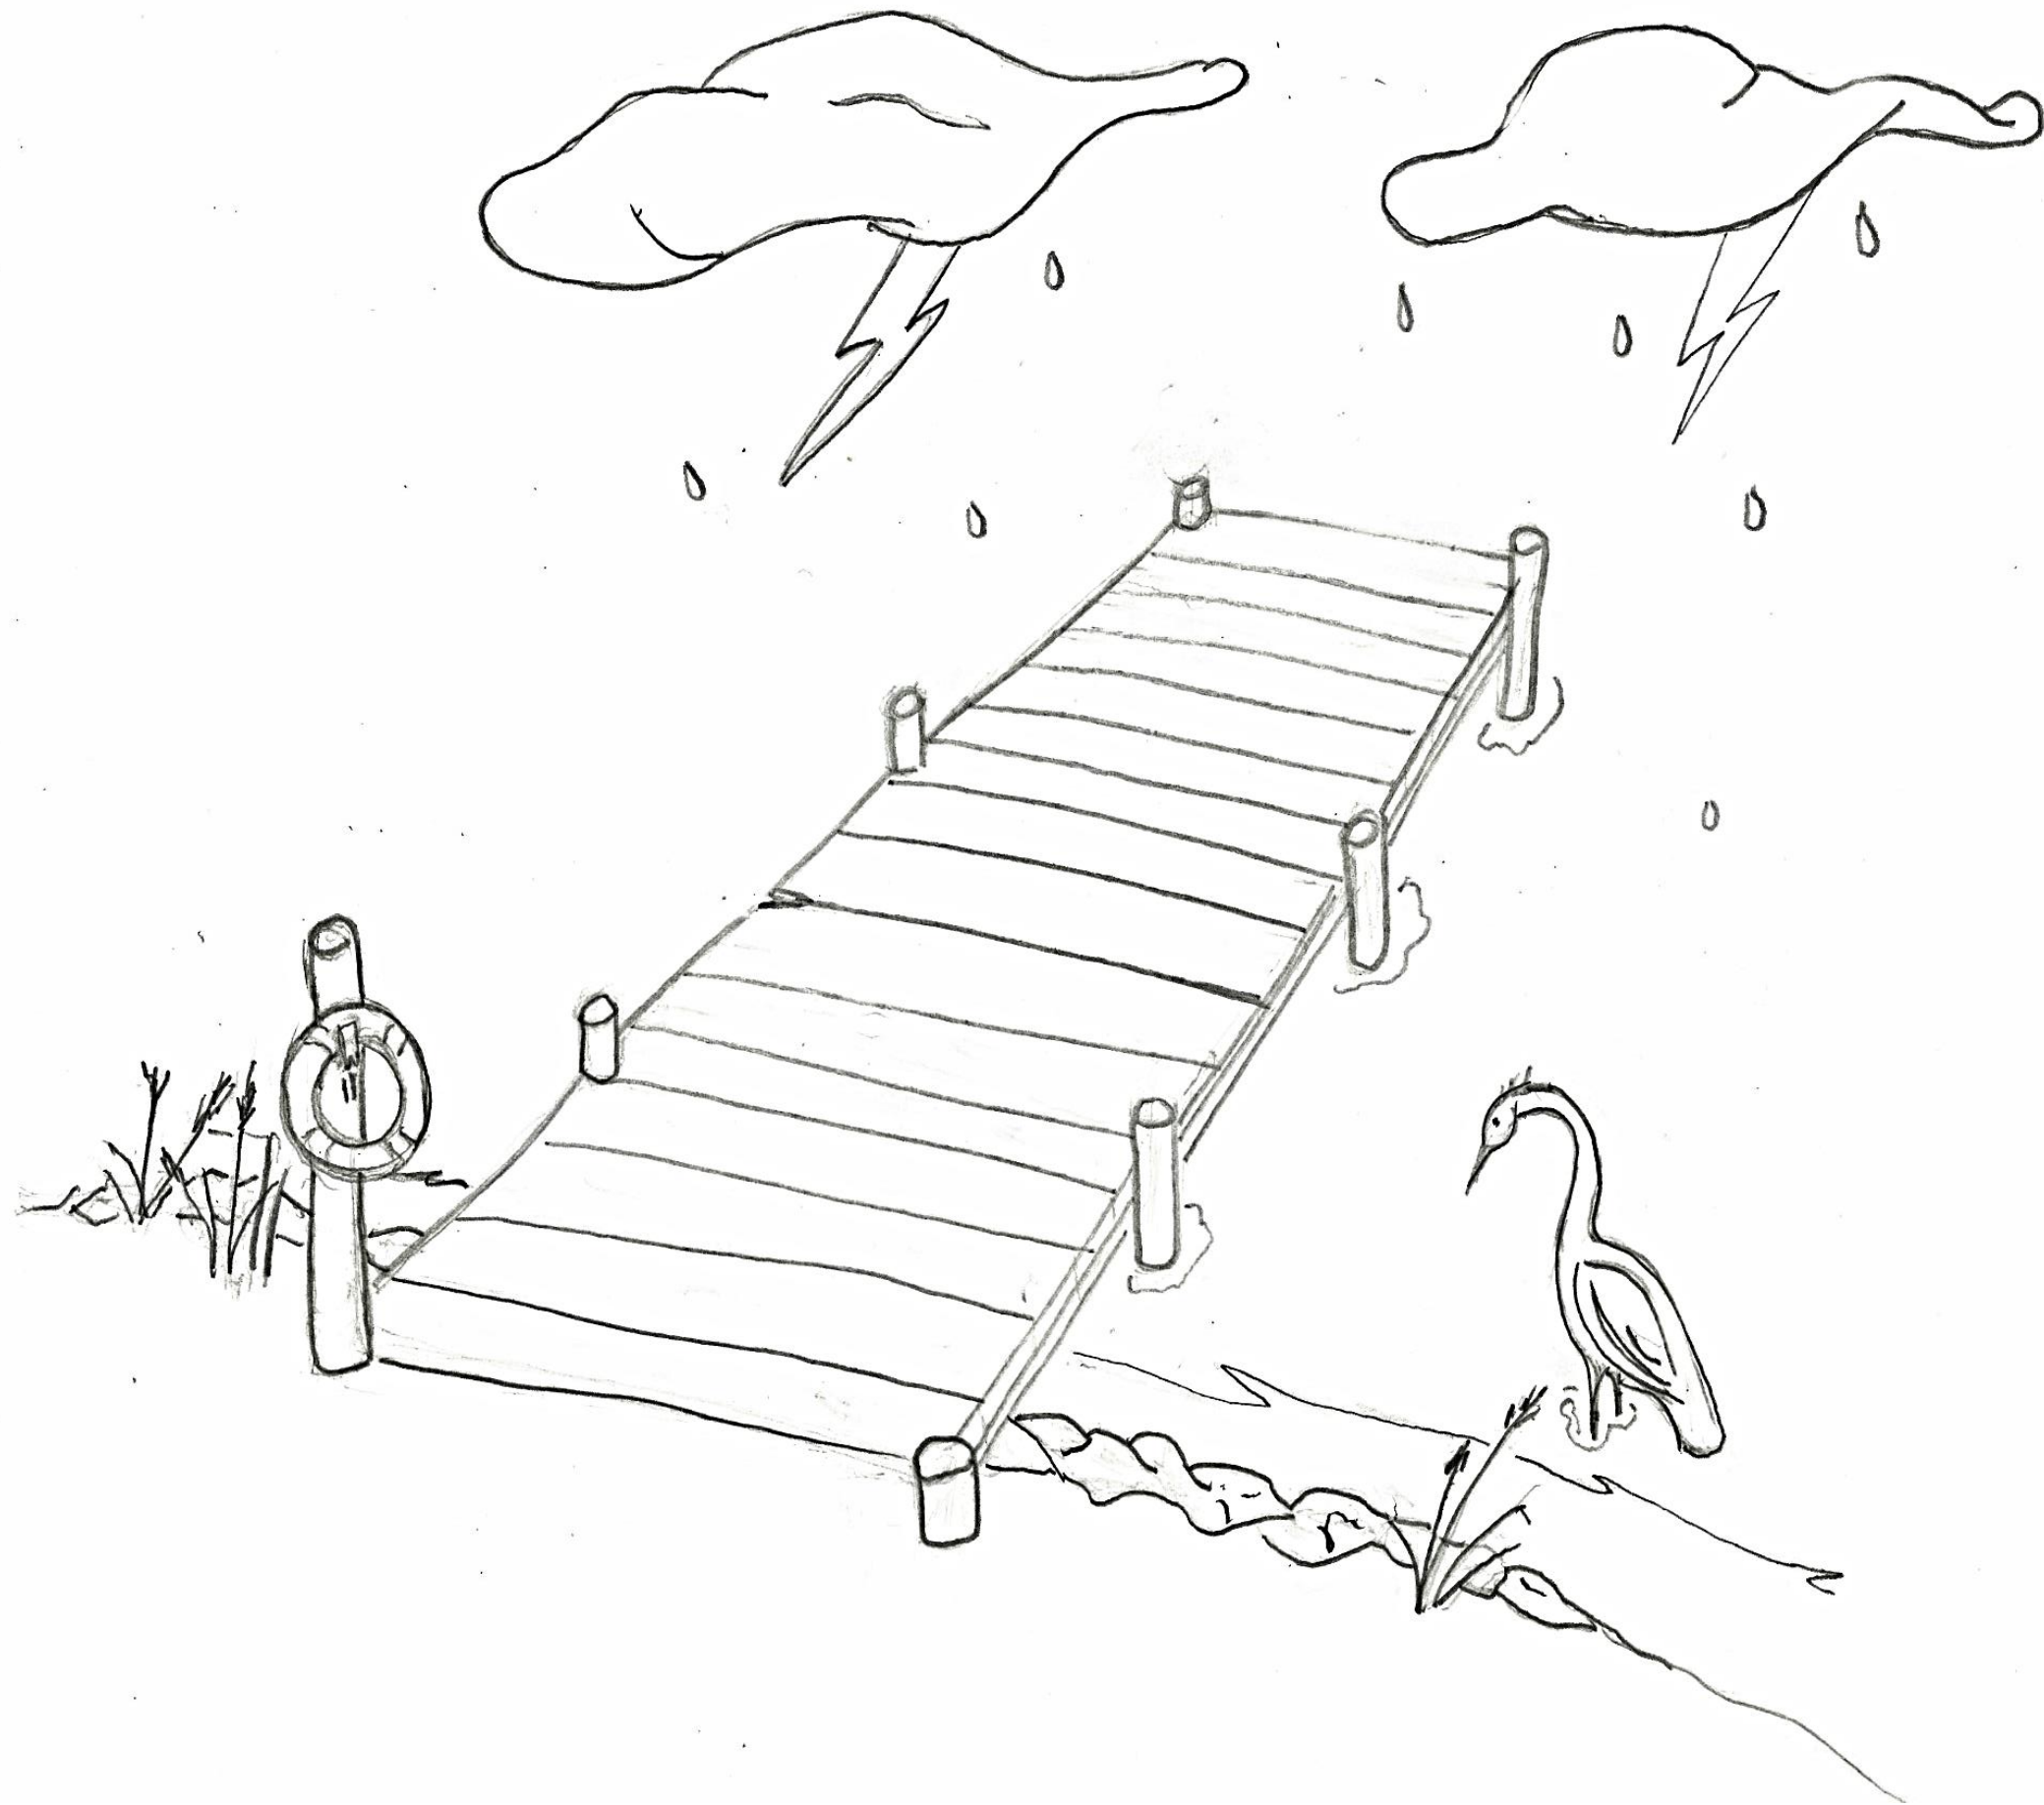

Make sure your life jacket fits properly

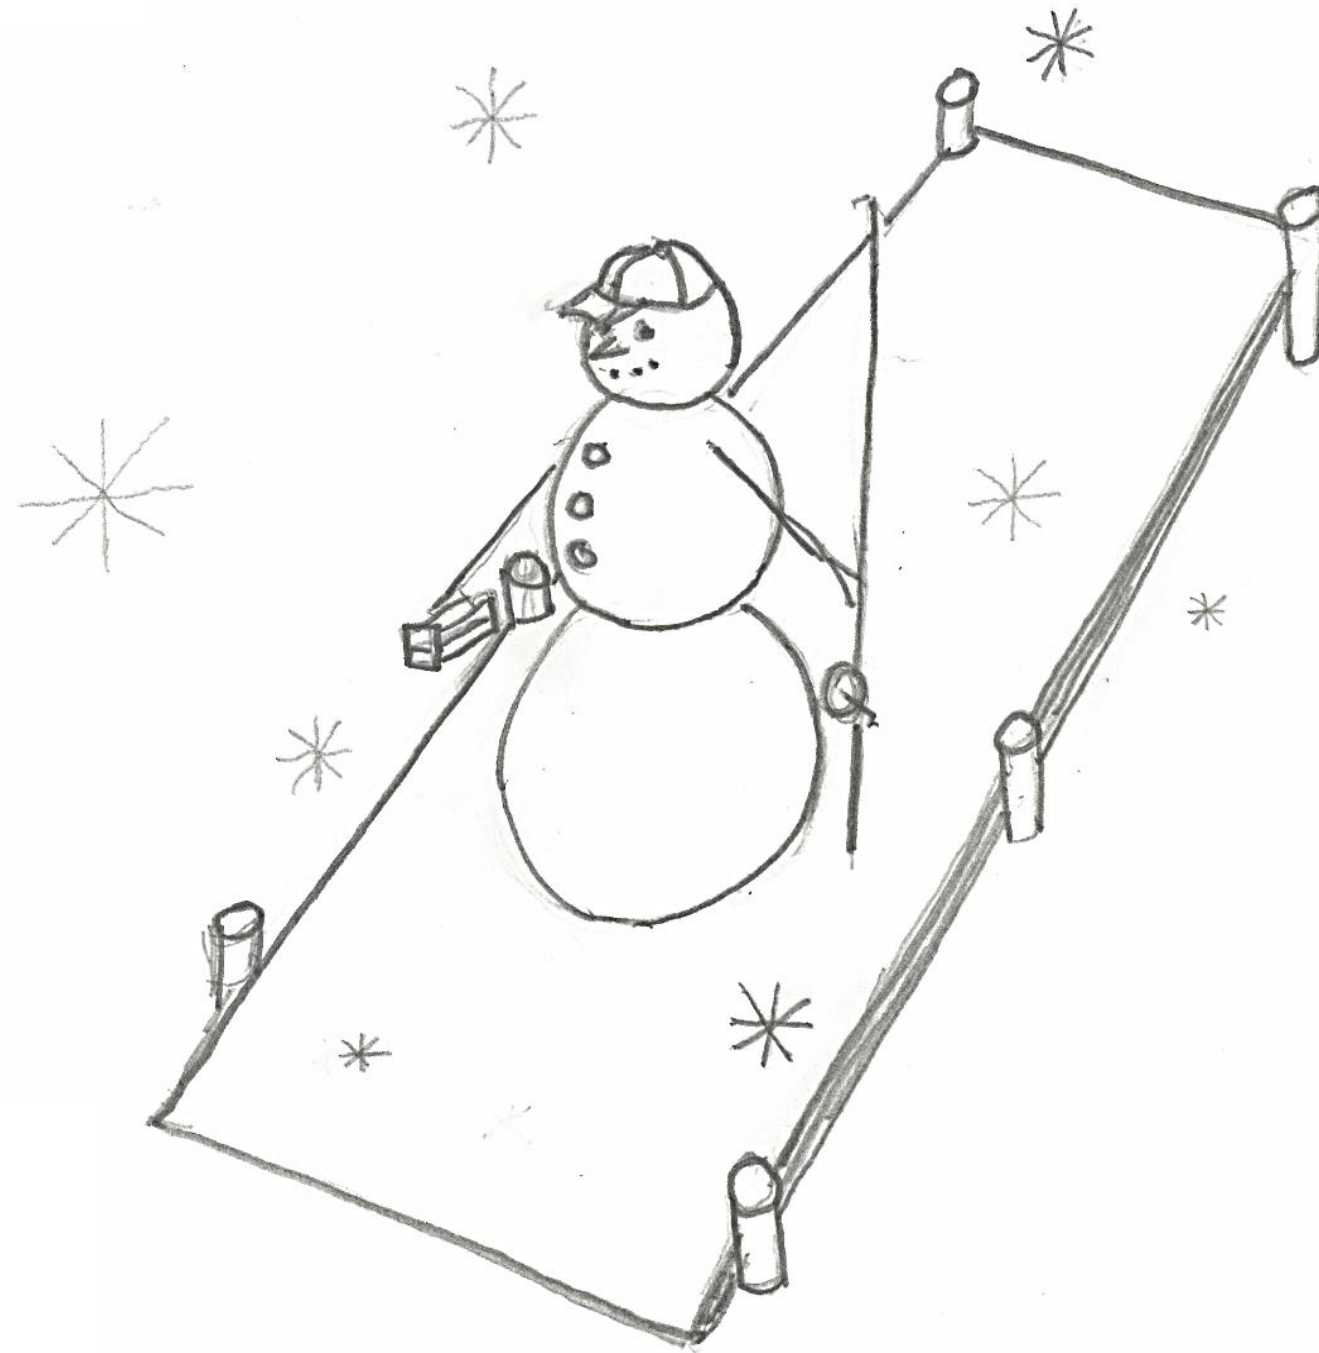

A whistle on a string may be just the thing to get the help you need. Keep one tied to your life jacket.

SNOW

RAIN

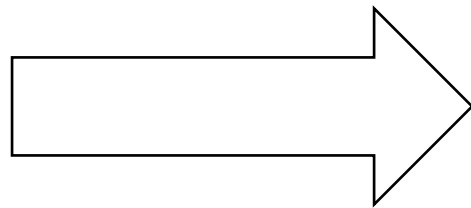

ICE

SLEET

These will make a dock slippery

Check the condition of ladders before using

No climbing on
barnacles

Don't go from the boat to the dock without your life jacket on.

You could fall in and hurt yourself.

Look out for others on the dock

You could fall in...

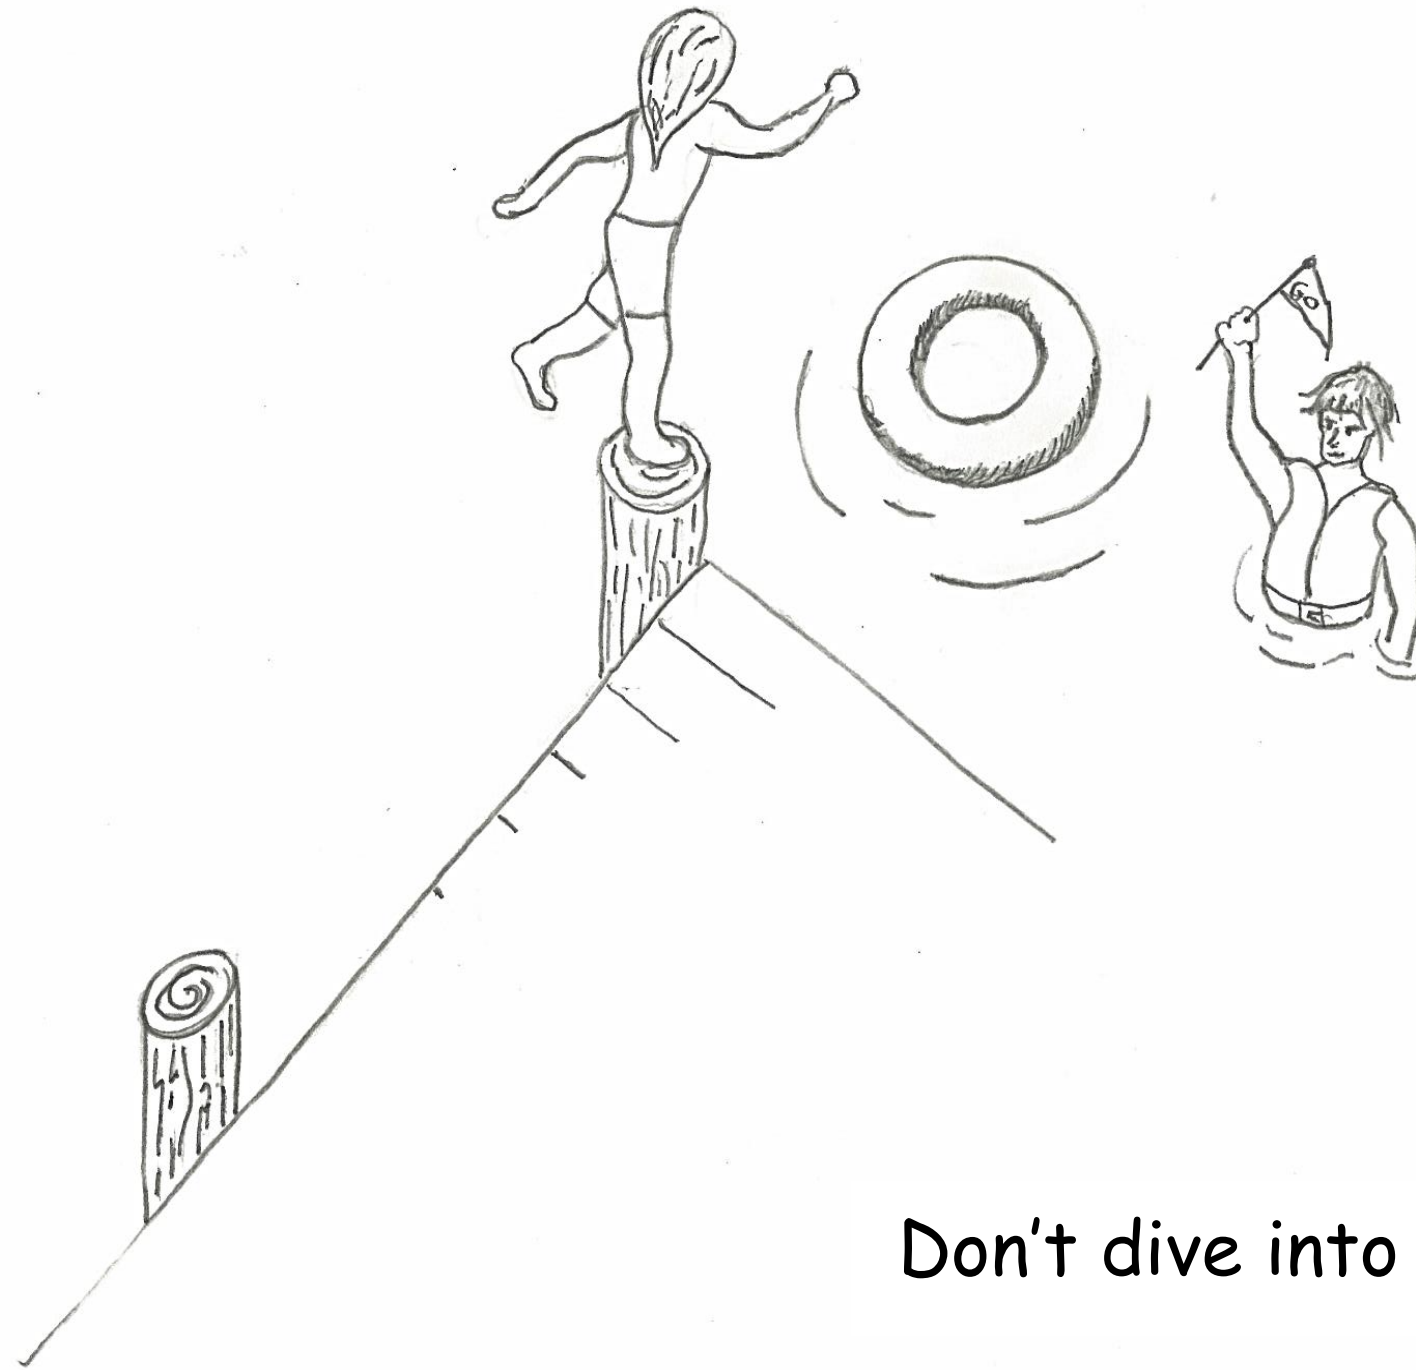

...when on the dock with furry friends

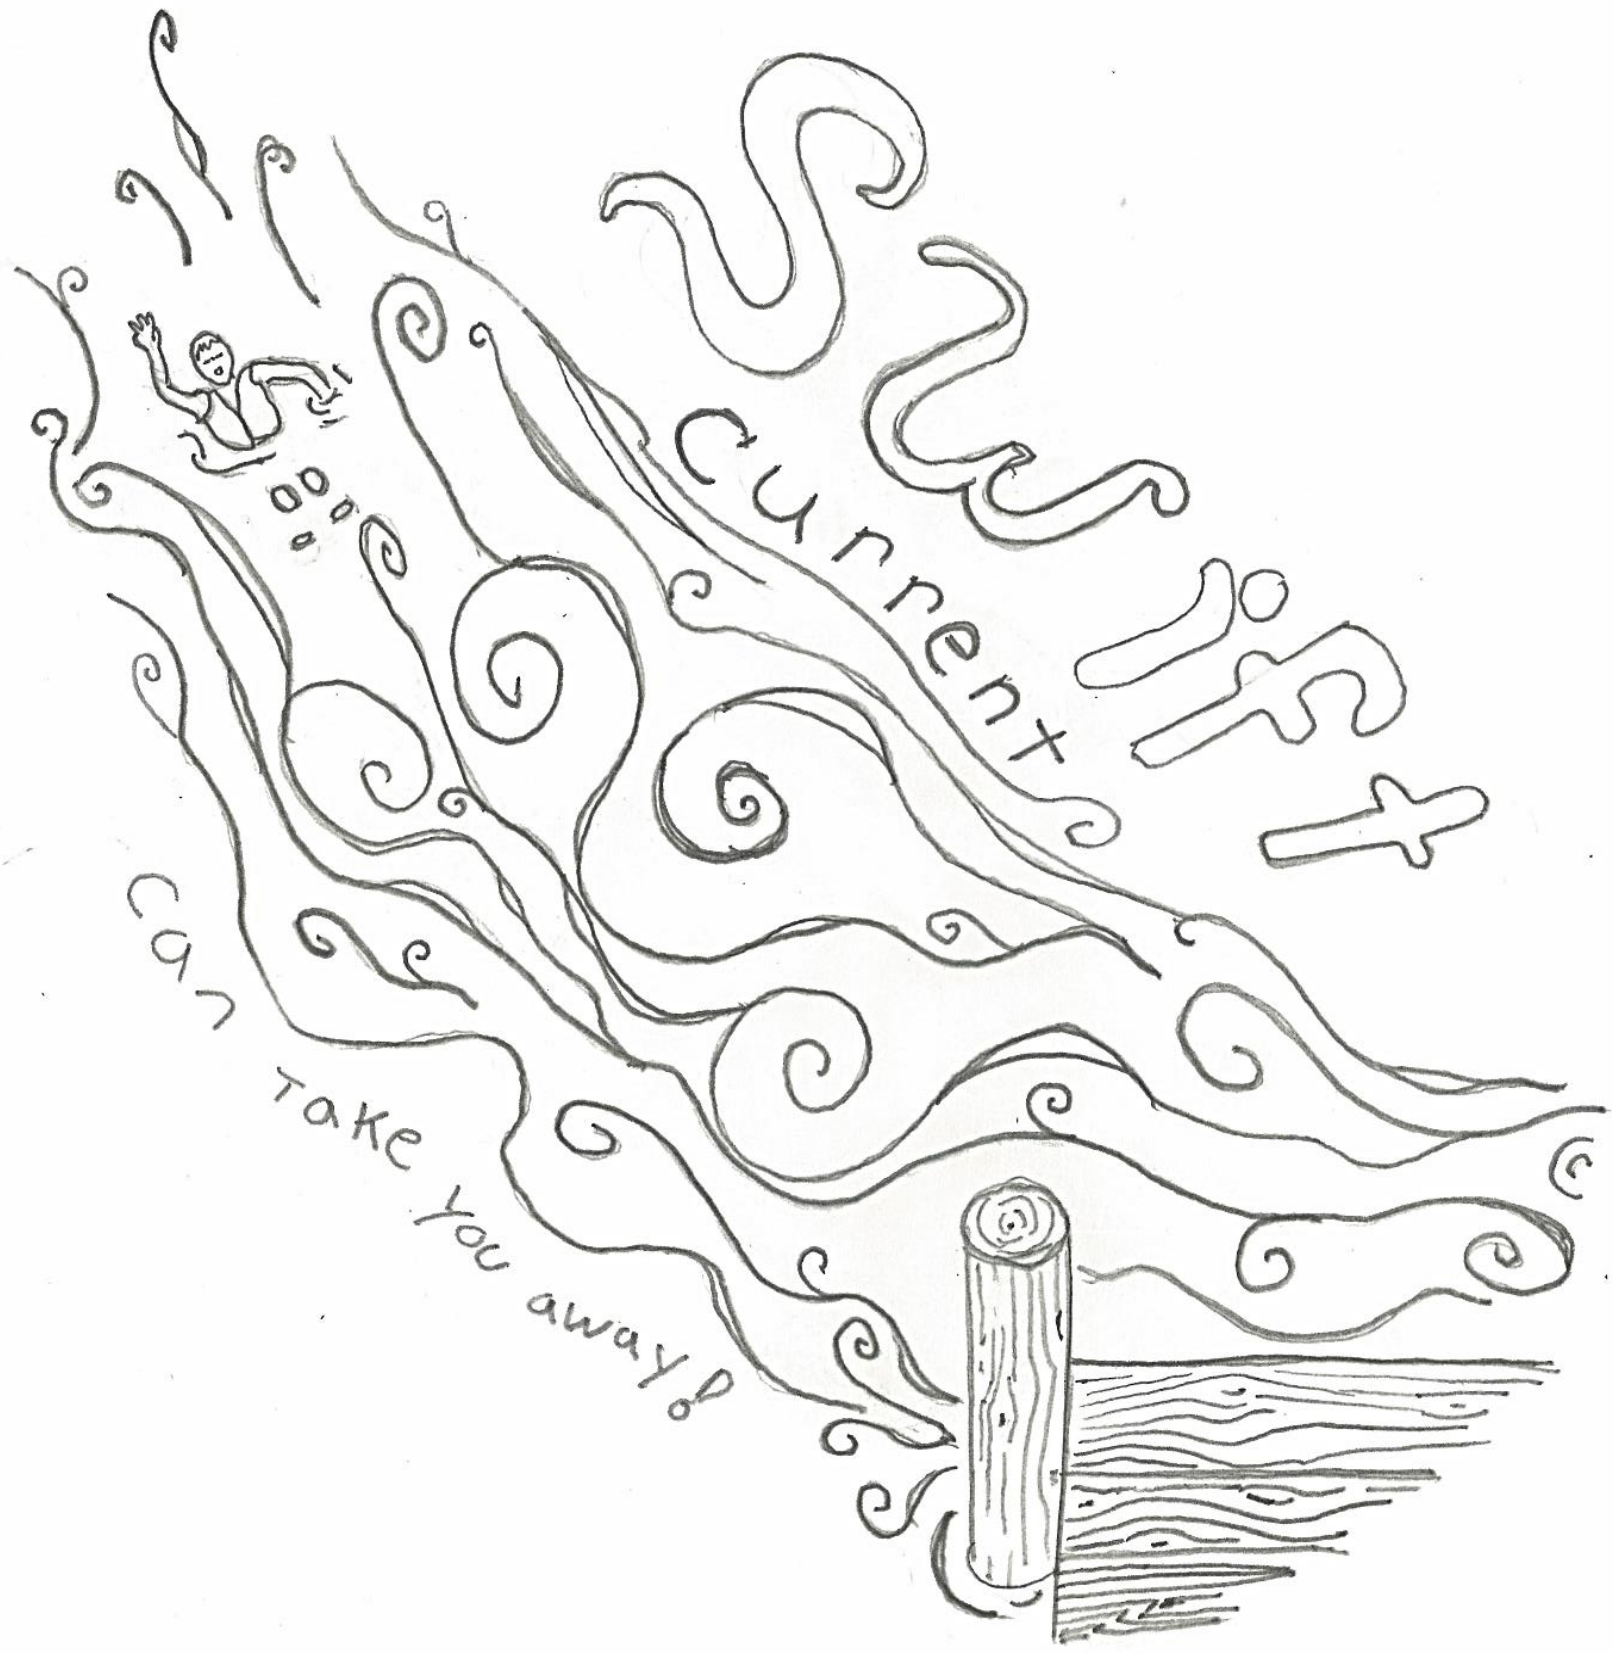

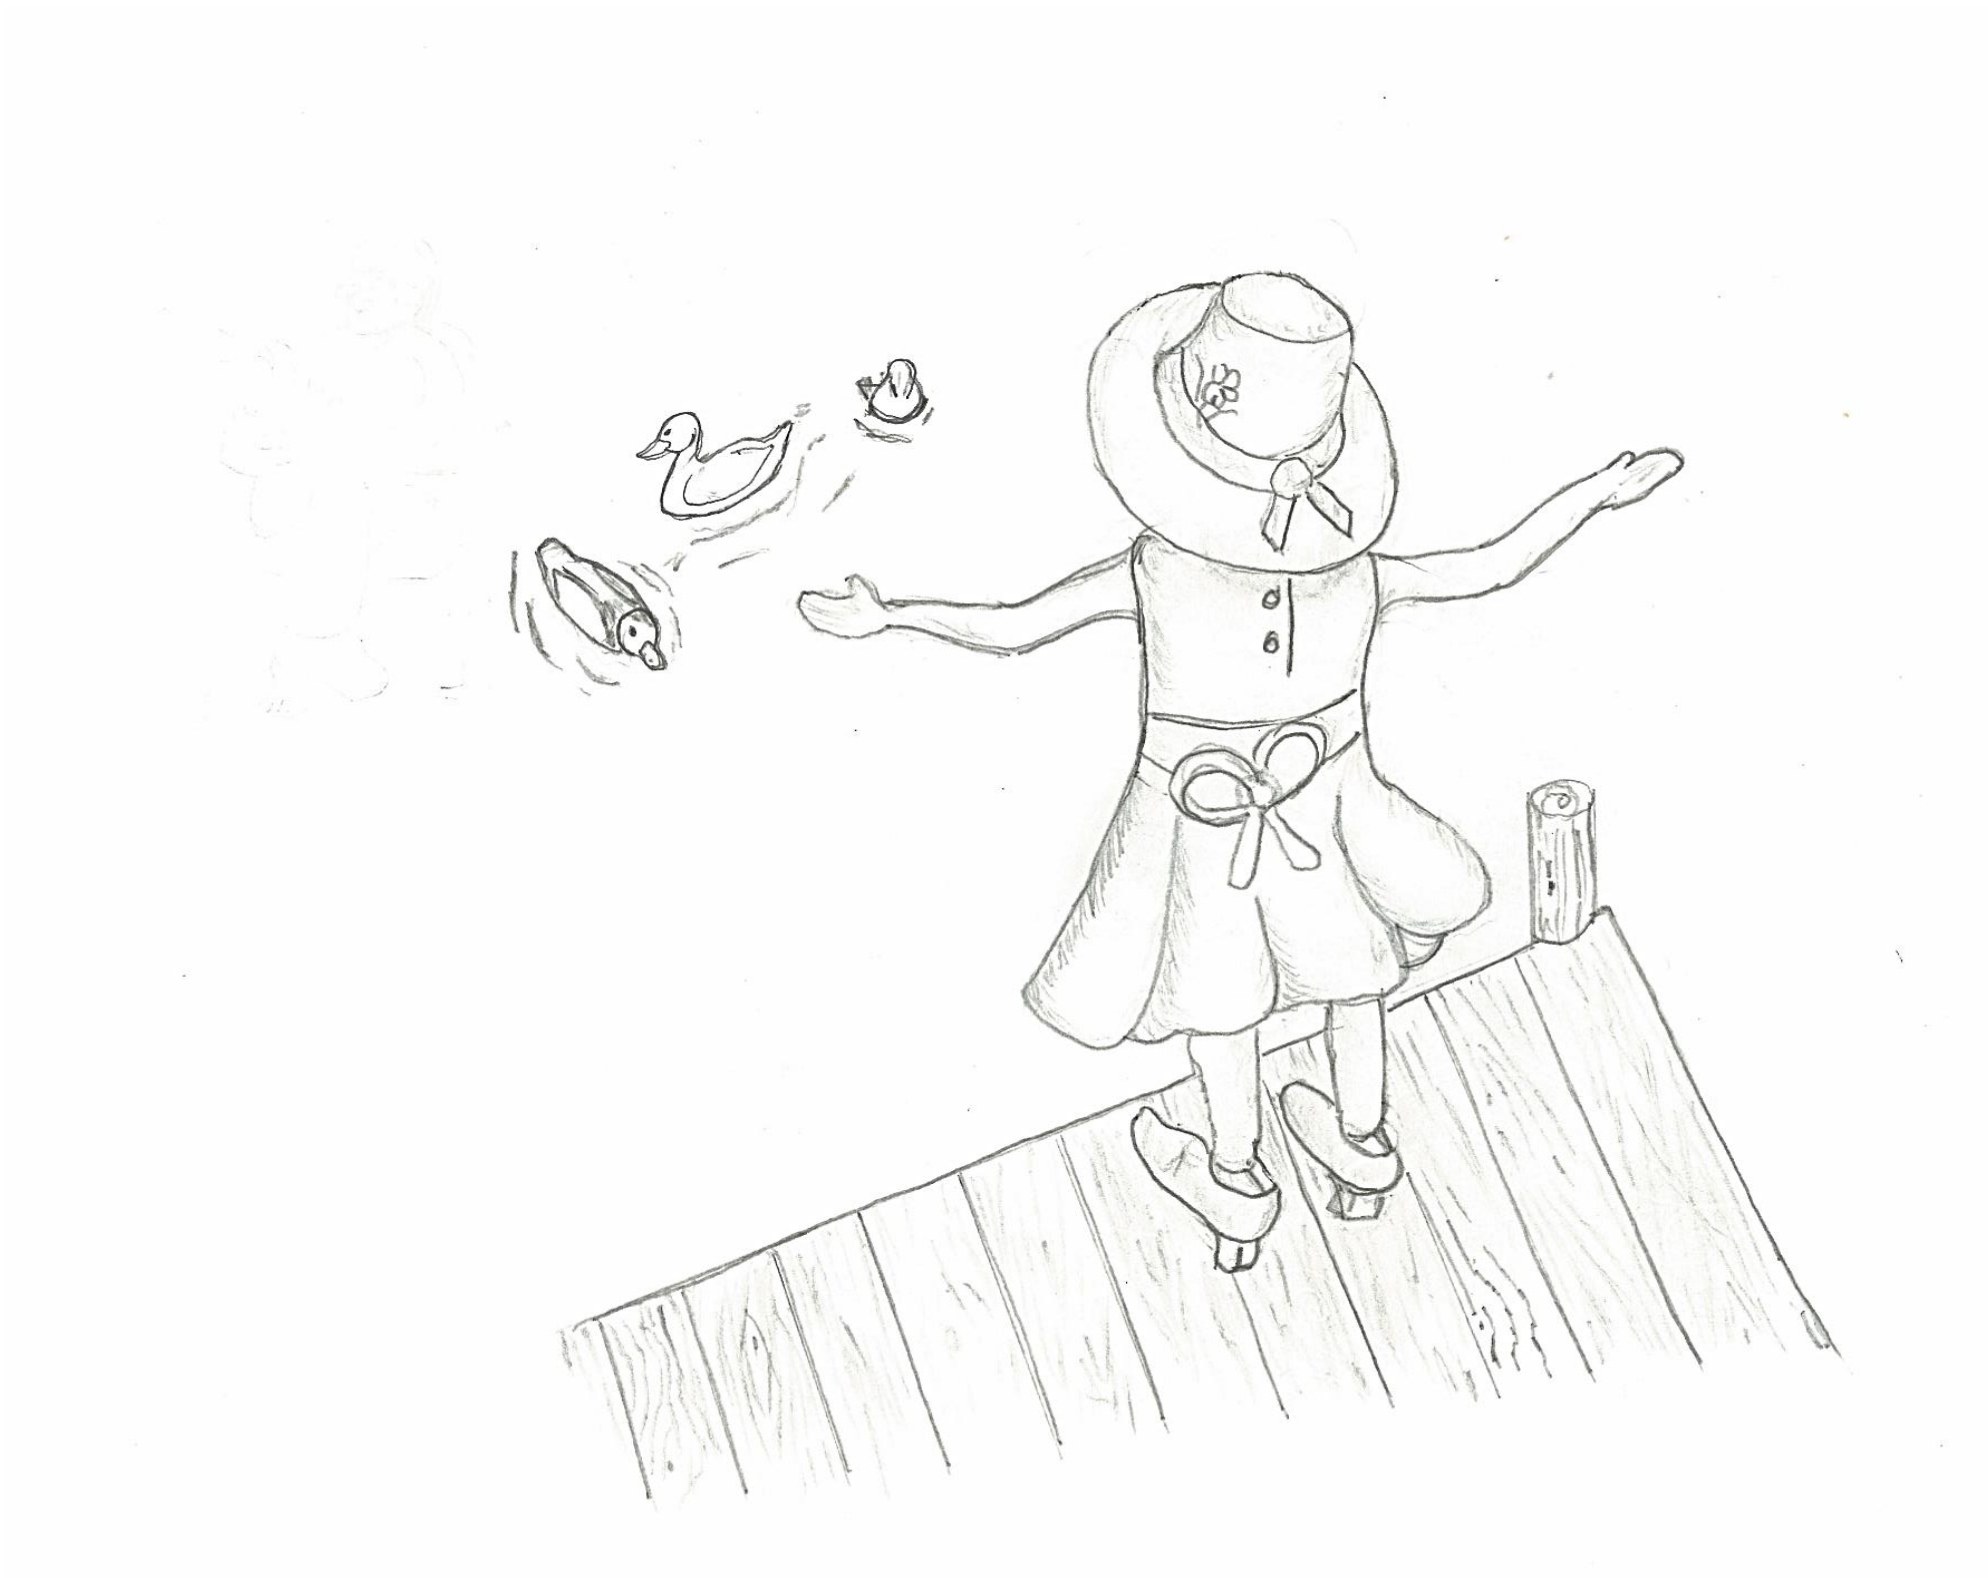

**Get help as quick as possible
CALL 9-1-1**

No playing on the post.

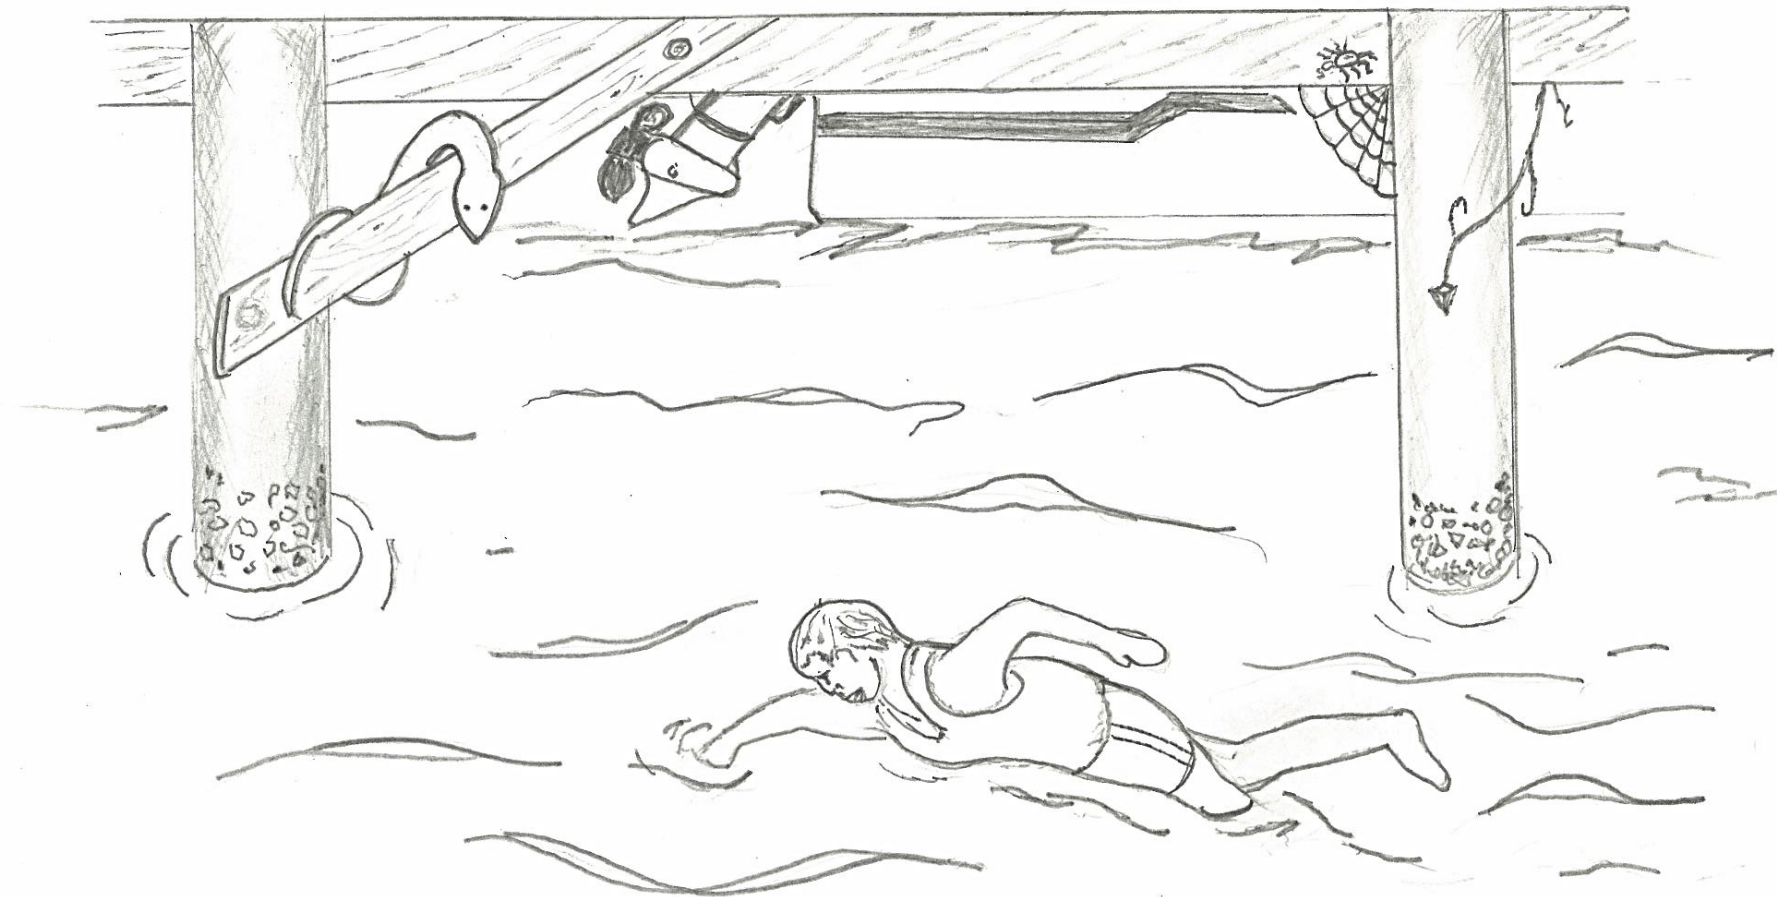

Don't dive into shallow water.

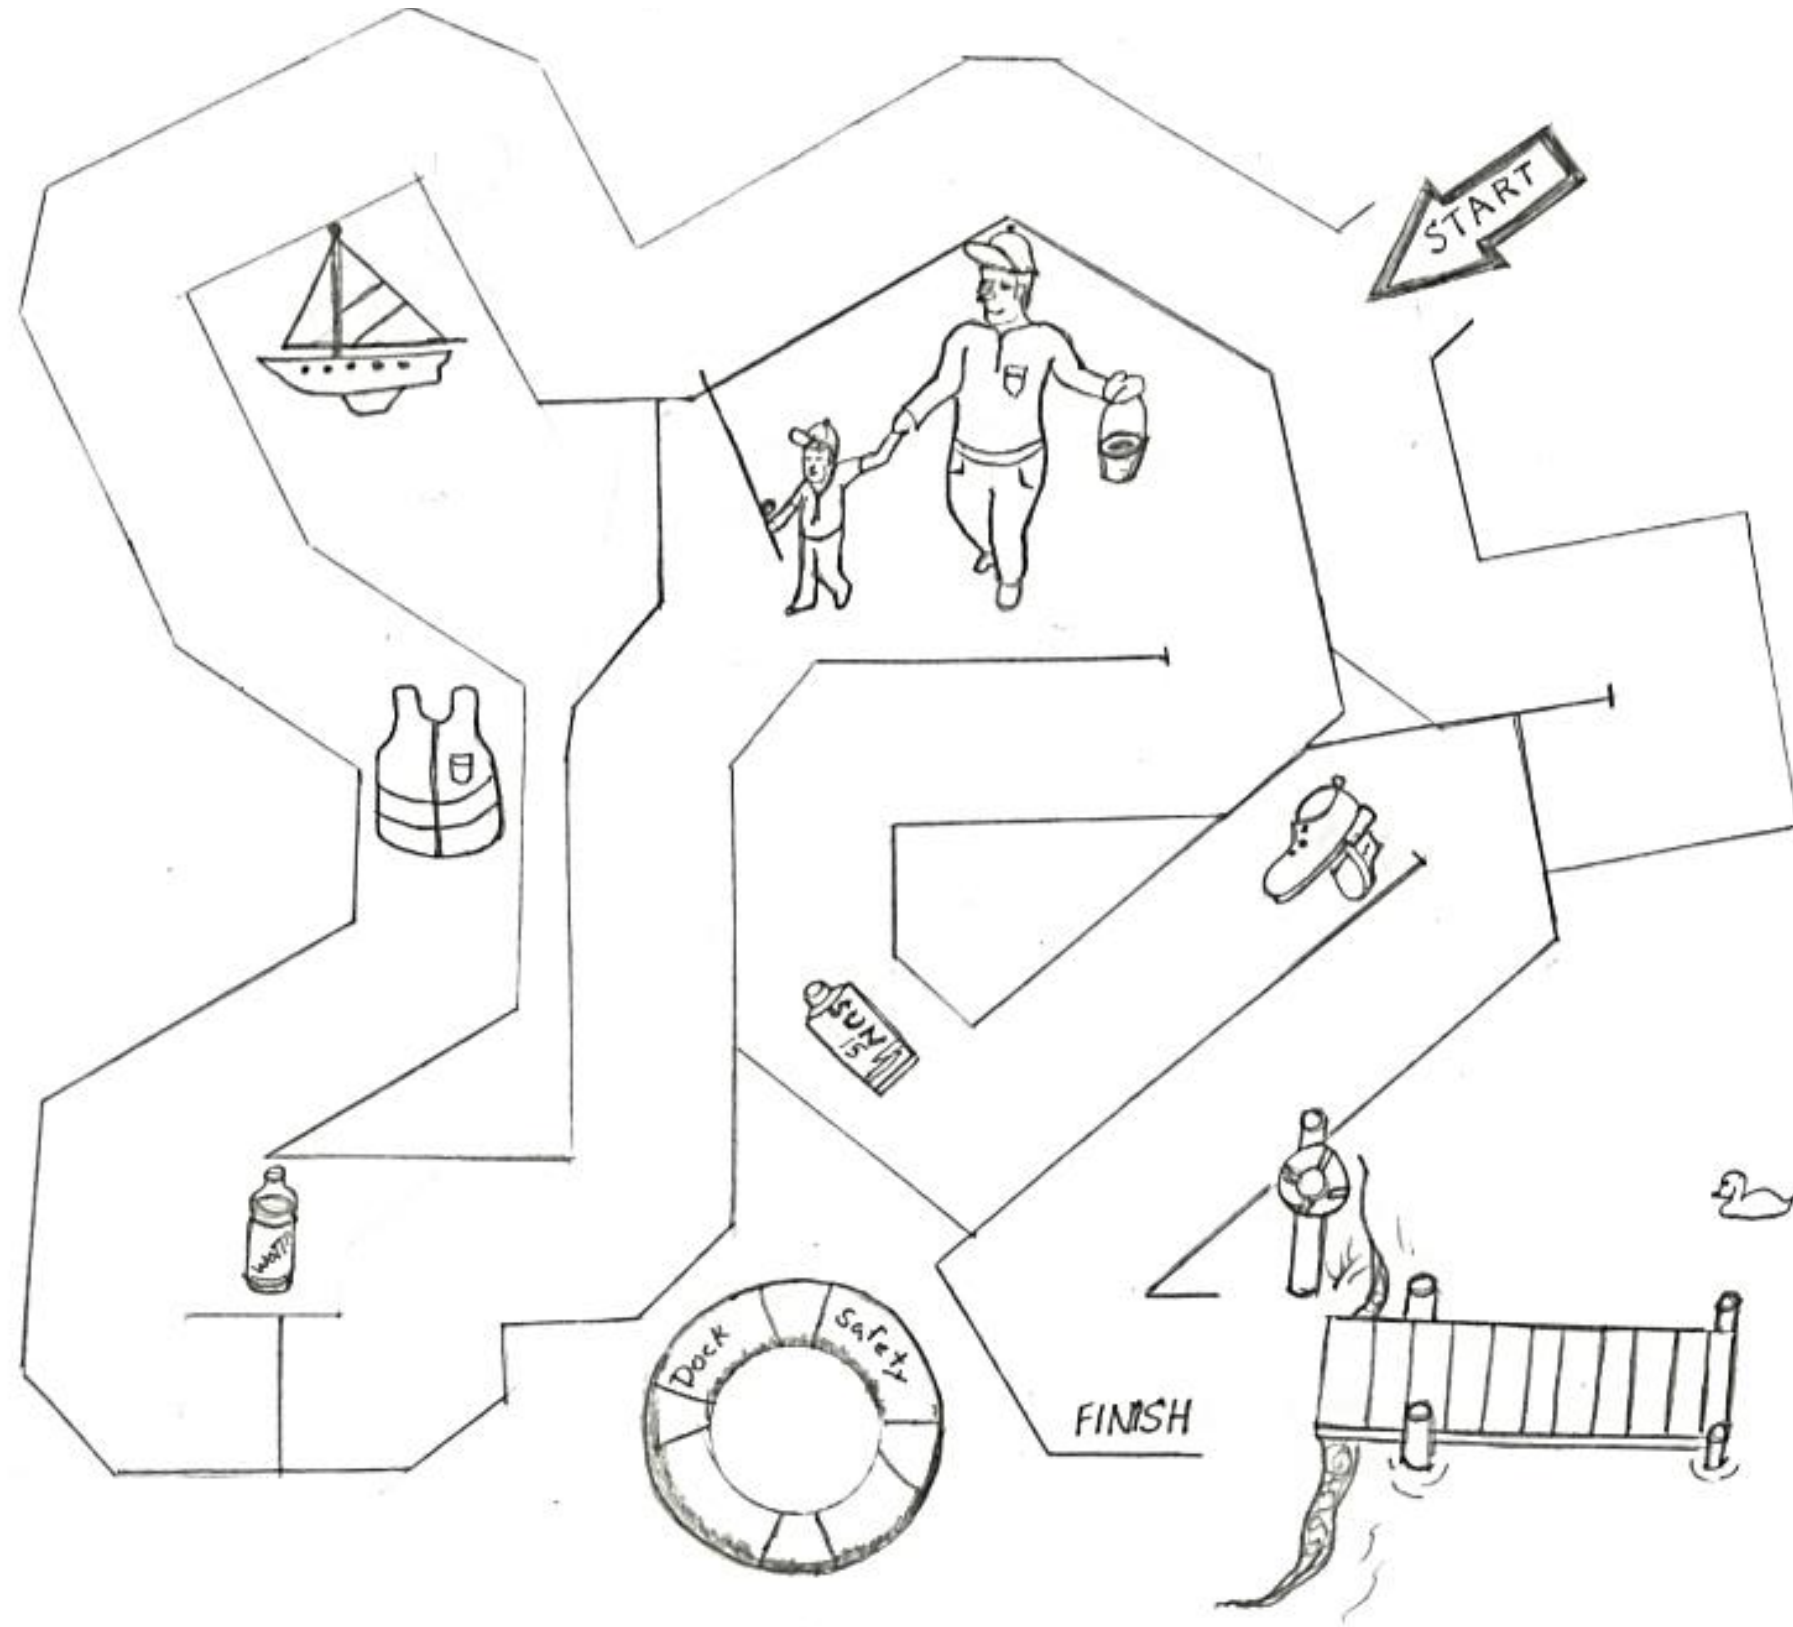

The dock is not a place to play alone

Don't swim under a dock since boaters can't see you.

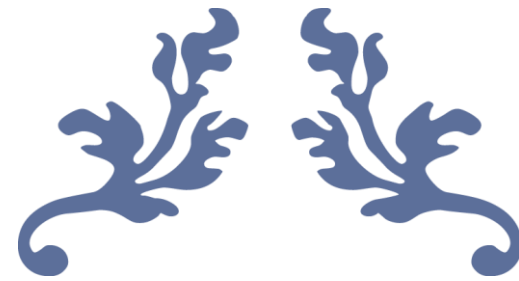

Can you find any other reasons why swimming under a dock is dangerous?

Let's have fun on the dock!

Pick up the things you need along the way to have a great day!

This safety guide dedicated to
baby Noah by the Thomas family.
